

FULLY PERSONALISED CEREMONY

This includes:

- Initial meeting with me to talk all things love, wedding and sign some of the legal biz. See if I'm the one you picture for your big day.
- Help on the wedding planning journey including recommendations on other vendors, hints on personal vows, and anything else in between.
- A celebrant fully committed to you. One wedding per day in case there are any last-minute changes because who knows what's in store in a years time.
- A fully personalised ceremony script which I create from a questionnaire I hand over. I call it the "homework". If couples wish to have a read of the draft I will send it through prior to the ceremony.
- A final meeting prior to the ceremony in which we can discuss all the minor details, like how the set-up will look and colours worn so I don't rock up looking like one of the wedding party.
- Use of my PA system and mics throughout the ceremony in which ceremonial music can be played by a loved one or by myself.
- All legal paperwork completed and lodged with BDM.

LEGAL ONLY CEREMONY

This includes:

- Initial meeting to sign the NOIM
- A generic legal only script which leaves open a spot for personal vows for those special moments.
- Use of PA system and mics for your big day.
- All legal paperwork completed, and lodged with BDM.
